

Welcome to
VIVO Enoteca Cucina

The Wine List

Our complete list, including our cellar list, is provided in this book. Tasting notes can be provided for many of the wines listed. Please ask your server if you are interested in knowing more about a particular wine.

We have over 600 different wines on offer. Our wine list represents a selection of wines from around the world. We have attempted to include a broad range of grape varieties as well as regions.

All wines and vintages are subject to availability and some wines may only be single units.

Due to the size and scope of the wine list, we have included scores or ratings on select wines that you may be less familiar with. Where wines have been reviewed by a credible source such as Robert Parker (RP), Wine Spectator (WS) or Jeremy Oliver (JO), and deemed to be outstanding, extraordinary and/or classic (having received a score of 90 out of 100 or better) the score is listed.

As every person has different tastes, we believe that the determination of wine quality is a personal matter. A high score does not necessarily mean that you will enjoy a particular wine any more or less than a wine with a lesser or no score (many of which are also very good or have never been reviewed). We encourage you to try as many wines and wine styles as possible and over time you will come to appreciate what constitutes quality from your own perspective.

Wines by the Glass

We are pleased to be able to offer a broad selection of both local and international wines by the glass. We offer over 50 wines by the glass so that you can enjoy different taste experiences.

Our unique Cruvinet wine preservation system allows us to offer you fine wines by the glass. By using argon gas this system ensures that wines are as fresh as when the bottle is opened. The Cruvinet holds ten white and ten red wines, many of which you will not find available by the glass anywhere else.

We encourage you to be adventurous!
